The New York Sun FOR 1891.

Some people agree with THE SUN's opinions about men and things, and some people don't; but everybody likes to get hold of the newspaper which is never dull and never afraid to speak its mind.

Democrats know that for twenty years THE SUN has fought in the front line for Democratic principles, never wavering or weakening in its loyalty to the true interests of the party; it serves with fearless intelligence and disinterested vigor. At times opinions have differed as to the best means of accomplishing the common purpose; it is not THE SUN's fault if it has been further into the millstone.

Eighteen hundred and ninety-one will be a great year in American politics, and everybody should read THE SUN.
